DAY 1 : Light up & Power Africa

Questions from Mr. Yutaka HADA, Japan Business Council for Africa

Q1: Green energy is important, but it is also important to take steps to improve access to energy in the country as a whole. What kind of power sources are you planning to use in the future? What is **your country/ region's vision for the future energy**. How do you plan to utilize **the private sector** to achieve it?

Q2: Green energy resources such as hydropower, geothermal power, and wind power are **unevenly distributed** in the regions. **Sharing these resources across the borders, with RECs or with the African Continent as a whole** is useful. Tell us about the thoughts and specific actions of each government/ region.
